

CMO  
PARIS

## La marque *The brand*

---

L'abaca, le buntal, la feuille de palmier, la jacinthe d'eau, le chanvre du Népal... Une passion pour les plus belles fibres naturelles et l'artisanat traditionnel ont amené CMO à découvrir des matières exceptionnelles. Pour exprimer leurs qualités intrinsèques - finesse, état brut, richesse des imperfections - ces fibres sont tissées et magnifiées sur des métiers à main par des artisans aux gestes sûrs et séculaires.

*Abaca, buntal, palm leaf, water hyacinth, Nepali hemp... A passion for the world's finest natural fibers and traditional craftsmanship has led CMO to discover exceptional materials. To reveal their intrinsic qualities - delicacy, natural state, richness of the imperfections - these fibers are woven and magnified on handlooms, by craftsmen who perpetuate age-old gestures.*

---

## Développement durable

### *Sustainable development*

---

Les plantes qui offrent leurs fibres sont cultivées ou prélevées dans le respect de leurs écosystèmes. Elles font depuis toujours partie de leurs paysages, dont elles aident à maintenir les spécificités, la biodiversité, et la structure (soutien des sols, refuges pour les oiseaux, etc.): leur exploitation responsable permet de préserver et protéger les zones naturelles. Seules celles qui permettent une exploitation responsable sont choisies (repousse rapide, coupes légères, etc.). Toujours à proximité de l'artisan qui les travaille, ces plantes nourrissent ainsi des économies locales compatibles avec la protection de la nature.

Le souffle de la nature porte celui de l'homme...

Le durable est aussi dans la préservation de l'artisanat et des gestes vertueux pour l'environnement qui y sont associés. Notre ambition est de protéger les gestes les plus rares : dans les villages les plus reculés existent des fibres végétales singulières et des techniques artisanales ancestrales. Nous les célébrons et les protégeons en valorisant la transmission de ces savoir-faire uniques de génération en génération, en les aidant à les perpétuer pour ne pas faire disparaître cette richesse par l'industrialisation.

*The plants which offer their fibers are cultivated or harvested using methods that respect their ecosystems. They have always been part of their landscapes, helping to maintain their specific features, biodiversity, and structure (soil support, shelter for birds, etc.): using them responsibly makes it possible to preserve and protect natural areas. Only those which can be used responsibly are chosen (rapid regrowth, light cutting, etc.). Always local for the craftsmen who work with them, these plants thus feed local economies compatible with the protection of nature.*

*The breath of nature carries that of man...*

*Sustainability also lies in the preservation of craftsmanship and the virtuous gestures for the environment associated with it. Our ambition is to protect the rarest handicrafts: in the most remote villages exist singular plant fibers and ancestral craft techniques. We celebrate and protect them by valuing the transmission of these unique skills from generation to generation, helping to perpetuate them so that this wealth is not lost through industrialization.*

---

---

La fibre végétale,  
notre marque  
de fabrique,  
notre objet d'affection.

*Plant fiber is  
our trademark,  
our object of affection.*

---

---

**Nées derrière l'horizon**  
*Born beyond the horizon*

Aux Philippines, en Indonésie...  
Dans des villages reculés, témoins  
de l'histoire de l'humanité.

*In the Philippines, Indonesia...  
In remote villages, witnesses to the history  
of humanity.*

---

---

**Fibres rares**  
*Exceptional fibers*

Vétiver, abaca, chanvre, raphia,  
palmier, jacinthe d'eau...

*Vetiver, abaca, hemp, raffia, palm tree,  
water hyacinth....*

---

—  
À la recherche  
de techniques que l'on  
ne trouve  
nulle part ailleurs

*Searching  
for techniques that  
can't be found elsewhere*

—

---

**Des heures de gestes manuels**  
*Hours of handcrafting*

L'artisan déploie tout son savoir-faire pour sélectionner les fibres les plus pures, filer la matière, twister les fils, puis les tisser ou les tresser...

Souvent, une journée pour faire un mètre de tissu.  
*The craftsman deploys all his knowhow to select the purest fibers, spin the material, twist the threads, then weave or braid them... Often, one day to make one meter of fabric.*

---

---

**Du champ à l'atelier**  
*From the field to the workshop*

Sans étape, nos fibres rejoignent directement les bras de l'artisan, qui les travaille alors exclusivement à la main.

*No intermediary steps.  
Our fibers are passed directly to our craftsmen who then work them exclusively by hand.*

---

## Revêtement mural

— CMO propose des textures murales précieuses, incarnées. Nées de pratiques artisanales et de matières nobles, elles élèvent le revêtement mural dans cet univers où le beau l'emporte toujours.

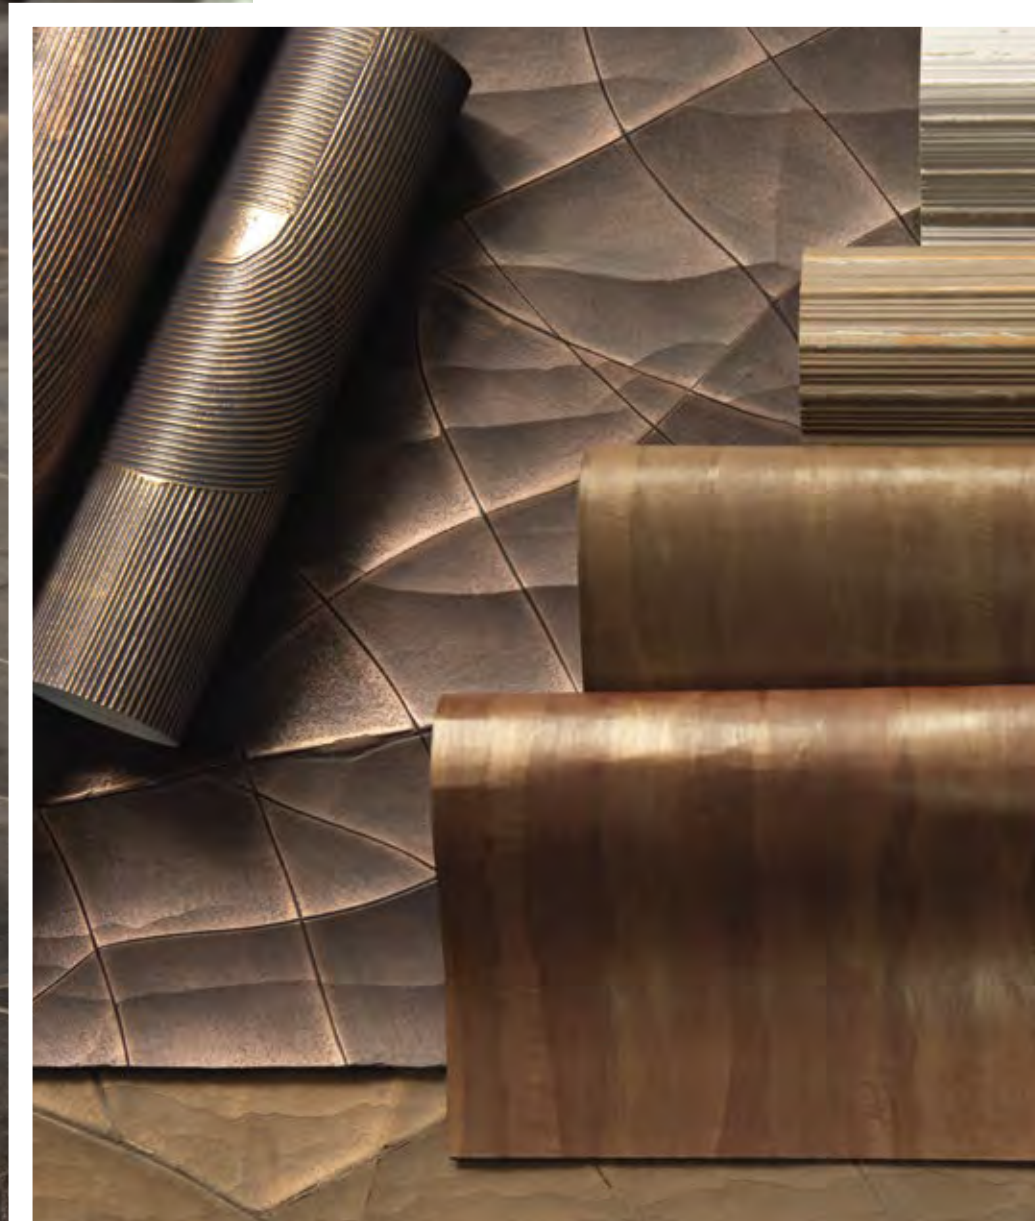

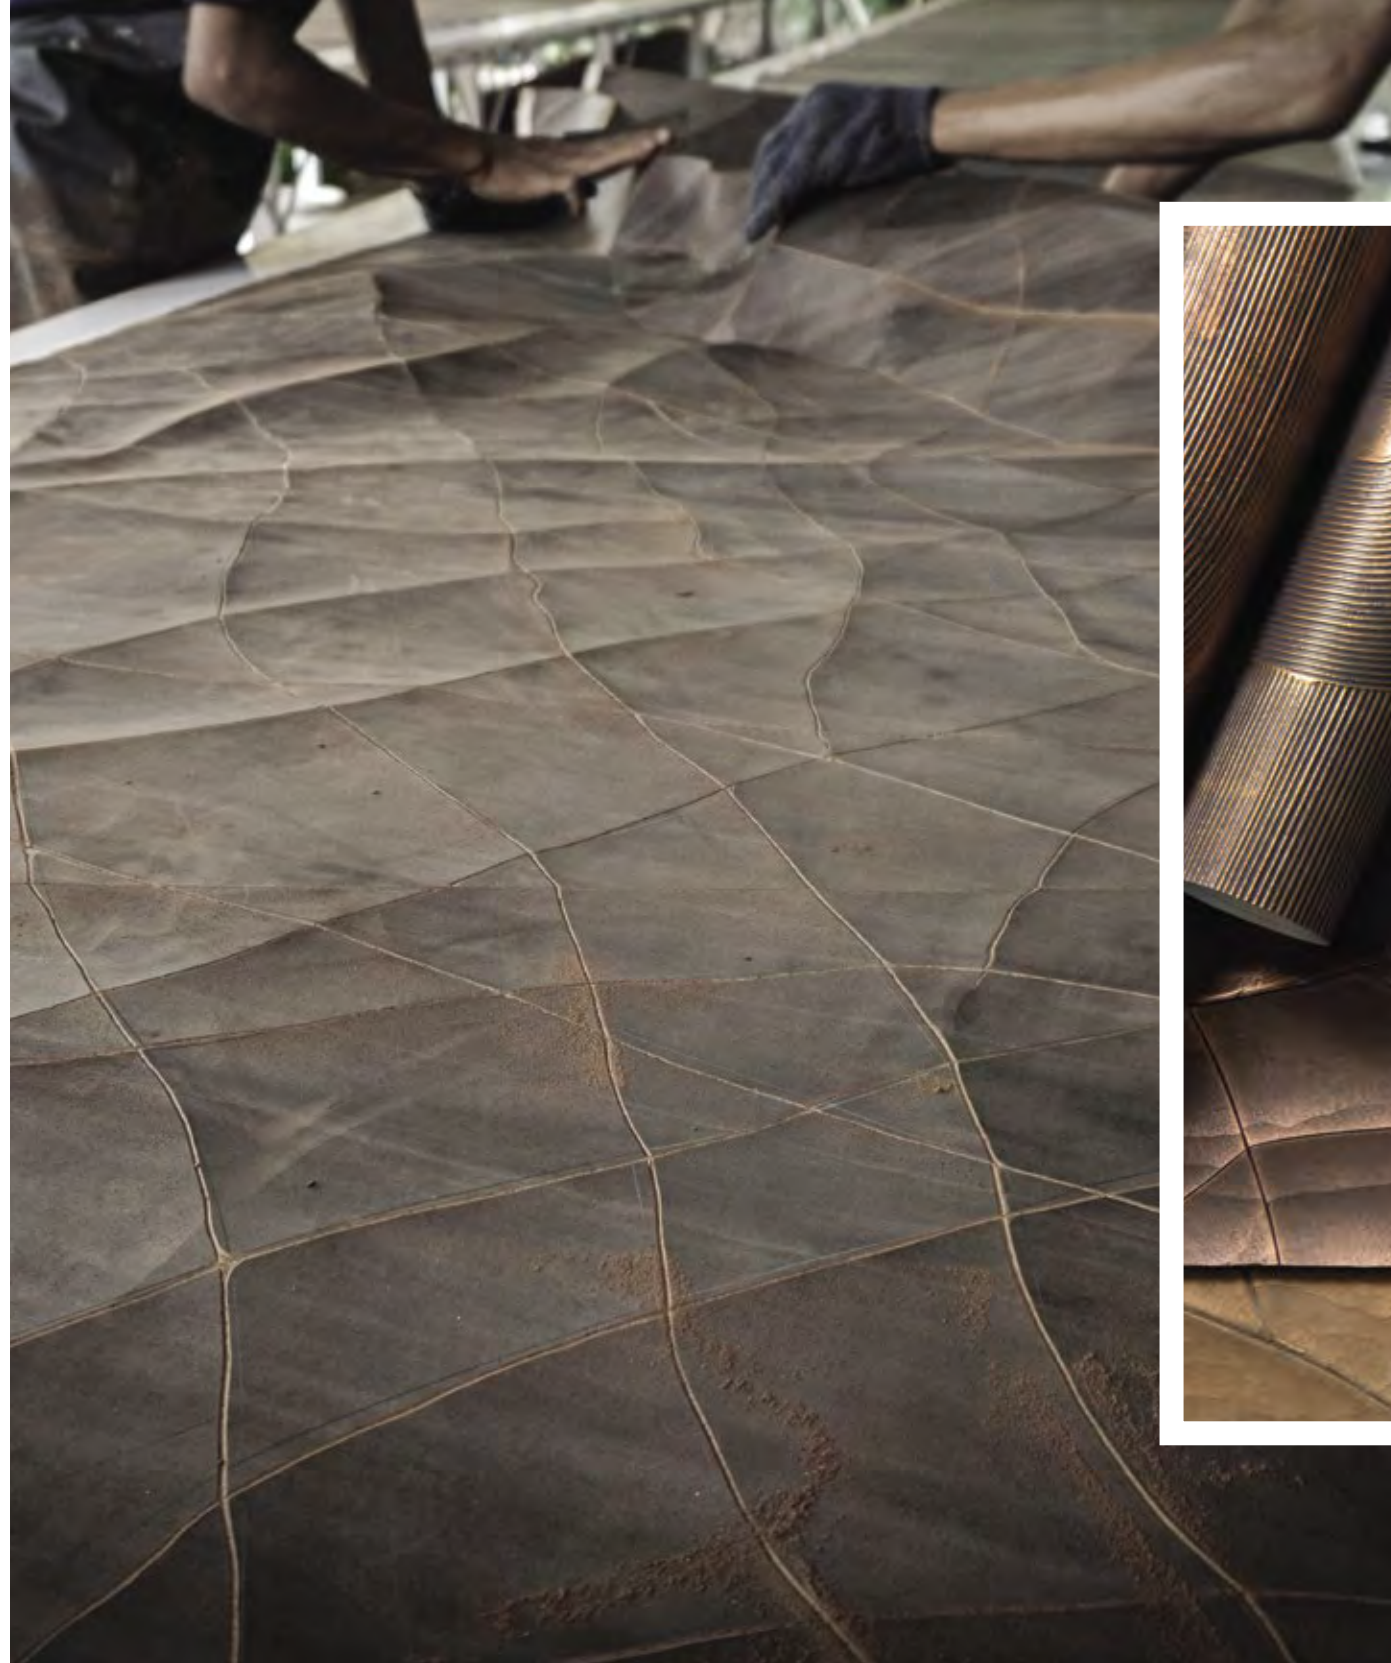

*CMO offers precious, embodied wall textures. Born from craftsmanship and noble materials, they elevate wallcoverings to a place where beauty always prevails.*

## Gesso mural

---

26 Le gesso, sculpté à la main, fait apparaître de fabuleux craquelés, des rayures, de fines stries, et un dessin réalisé au peigne, sublimé d'éclats d'or, d'argent, de cuivre et de bronze. De véritables sculptures minérales qui offrent leur proposition unique, née de la main d'un artisan devenu artiste.

*Hand-sculpted gesso creates fabulous crackle effects, stripes, fine ridges and a combed design, beautifully enhanced by flashes of gold, silver, copper and bronze. These genuine mineral sculptures present a unique range of options born of the hand of an artisan turned artist.*

## Essence Naturelle mural

---

38 Les fibres végétales prennent un chemin rare : elles viennent emprunter leurs effets au monde de la roche, trouvant la voie d'une nouvelle sophistication. Tissant le nénuphar pour en faire apparaître un veinage minéral. Mélant le chanvre et le rotin à des fils métalliques et s'animent de nouvelles nuances, elles aussi d'inspirations minérales.

*The plant fibres follow an unusual path: borrowing their effects from rocks, they find their way to a new sophistication. Weaving water lilies reveals a mineral-style graining. Blending hemp and rattan with metallic threads enlivens the collection with new shades, also inspired by minerals.*

## Sisal 2 mural

---

46 Lumière sur l'agave, avec la fibre de sisal, comme jamais on ne l'a vue. En prenant la forme d'une marqueterie immense, en s'ouvrant pour la première fois au plissage ou en se parant de reflets changeants, le sisal se laisse sublimer de façon peu commune dans des couleurs minérales nuancées.

*The spotlight is on agave, with sisal fibre presented in unprecedented ways. By taking the form of vast marquetry work, opening up to pleating for the first time or adopting changing reflections, sisal is beautifully enhanced in unusual styles with nuanced mineral colours.*

## Tissu

— **Ni posture, ni attitude. À la place, le naturel et la pureté de la fibre. De près, on peut y lire la maîtrise exceptionnelle du tissage ou du tressage qui l'a sublimée.**

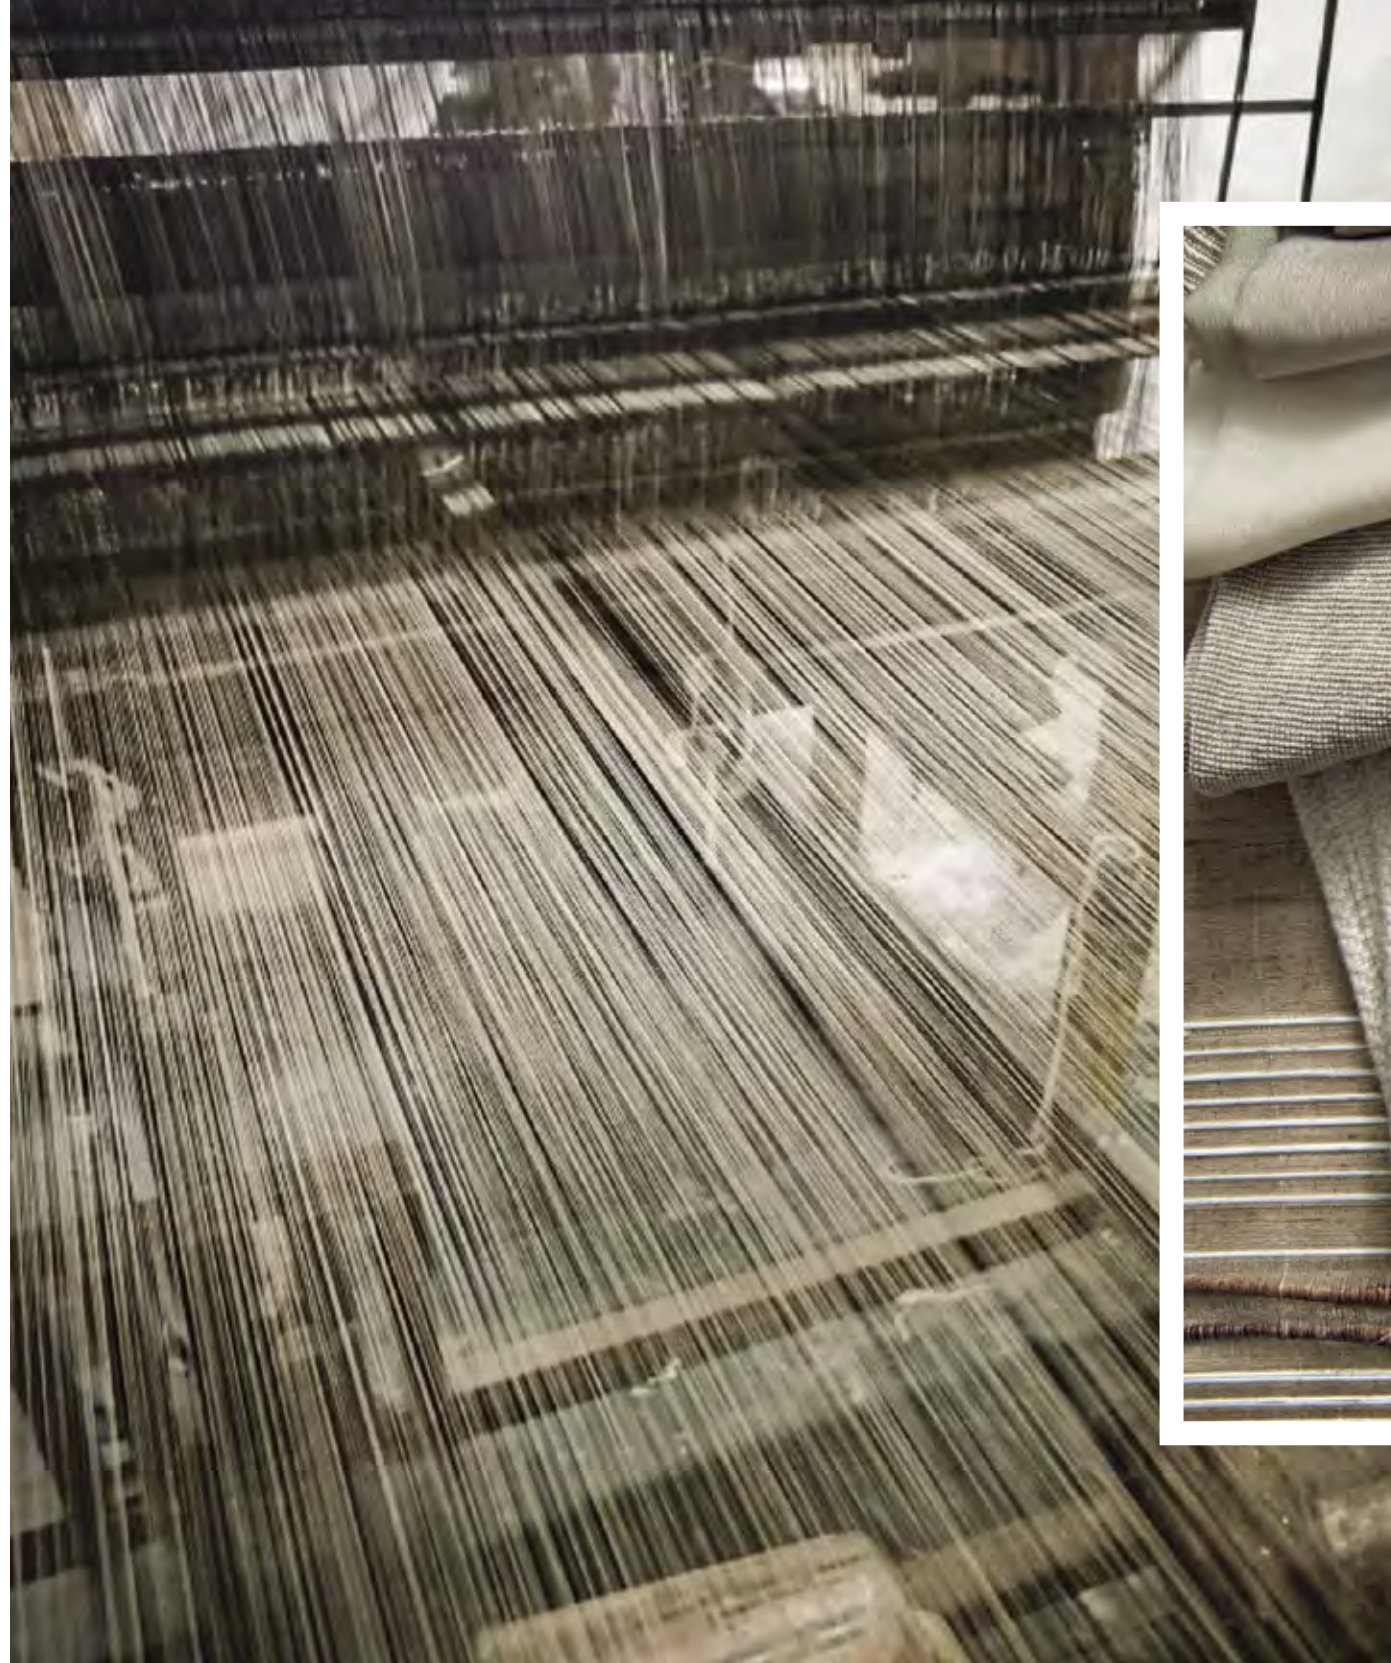

*No posturing. No attitude. Instead, the naturalness and purity of the fiber. Up close, we can decipher the exceptional mastery of weaving or braiding that has sublimated it.*

## Évasion 2

---

60 Des fibres d'une pureté sans précédent, parmi les plus belles matières au monde, travaillées entre les mains de hauts savoir-faire. C'est toute la promesse de cette collection qui offre une portée inouïe à la soie, au cachemire, au lin, à l'abaca... Lorsque la délicatesse atteint son apogée, elle fait apparaître des dégradés somptueux, des jeux de transparence, une main exceptionnelle, des tombés d'un autre monde, qui portent le souffle de la nature.

*Unprecedentedly pure fibers – among the finest materials in the world – worked by highly skilled artisans: this is the promise of the collection, which gives unprecedented scope to silk, cashmere, linen, abaca, etc. When the delicacy of these materials reaches its peak, sumptuous gradations, sheer detailing, an exceptional hand and otherworldly draping imbued with the breath of nature are revealed.*
